PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience developing web applications using Python, Django, React.js, and SQL. Familiar with REST API development, database integration, CRUD operations, and responsive frontend development.

SKILLS

Programming Languages: Python, JavaScript (ES6+)

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Frameworks & Libraries: Django, Django REST Framework, Flask, REST API

Databases: MySQL, SQL

Tools & Platforms: Git, GitHub, Vercel, Netlify

PROJECTS

Expense Tracker - Python, Django, JavaScript, HTML, CSS, SQL

[Link to GitHub](#)

[Link to Demo](#)

- Developed an **Expense Tracker** to record, manage, and monitor daily income and expenses through a responsive web interface.
- Developed **backend functionality** and **REST APIs** using **Python** and **Django** for handling expense data.
- Developed a responsive frontend using **React.js, JavaScript, HTML, and CSS**, allowing users to add, update, delete, and view expense records.
- Integrated **SQL database** with Django to store and manage expense data, including categories, amounts, dates, and transaction details.
- Implemented **CRUD operations** through **Django REST APIs** and connected the APIs with the React frontend for real-time data handling.

E-Commerce Platform - Python, Django, React.js, JavaScript, HTML, CSS, SQL

[Link to GitHub](#)

[Demo](#)

- Developed an **E-commerce website** using **Python, Django, React.js, JavaScript, HTML, CSS**, and **SQL** for managing products and customer orders.
- Created a responsive **React.js frontend** for browsing products, viewing product details, and managing the shopping experience.
- Developed **Django backend functionality and REST APIs** for handling products, users, orders, and other application data.
- Integrated a **SQL database** with Django to store and manage product, customer, and order information.
- Implemented **CRUD operations** through REST APIs and connected the frontend with backend services for smooth data management.

CERTIFICATION

Fullstack Web Development - Tap Academy (2026)

- Completed an intensive program covering Python, Advanced Python, Django, Flask, and MySQL for backend development, along with core frontend technologies.
- Gained hands-on experience with Object Oriented Programming, Multithreading, and Exception Handling in Python, and applied these skills across multiple full-stack projects, including an E-Commerce web application covering database integration, REST API design, and responsive UI development.

EDUCATION

College of Computer Science and I.T, Latur

Bachelor Of Computer Applications

Apr 2022 – Jun 2025

CGPA - 7.9 / 10
