## SKILLS

---

**Programming Languages:-** Python, JavaScript (ES6+), HTML/CSS, C++

**Framework and Libraries:-** React.js, Tailwind CSS, Django, SQL, Django Rest, Flask, Git, Github

## PROJECT

---

### Expense Tracker | *Python, HTML, CSS, JavaScript, SQL*

[Link to Github](#)

[Link to Demo](#)

- Developed a full-stack Expense Tracker application that enables users to record, categorize, and monitor their daily expenses and income, providing real-time insights into spending patterns through interactive summaries and visualizations.
- **Built a full-stack expense tracking application** allowing users to add, edit, delete, and categorize transactions (income/expenses) with real-time balance updates.
- **Designed an intuitive UI/UX** with category-wise filtering, date-based sorting, and search functionality to help users quickly locate transactions.
- **Integrated data visualization** (charts/graphs using Chart.js or Recharts) to display spending trends, category-wise breakdowns, and monthly comparisons.
- **Implemented budget-setting and alert features**, notifying users when spending approaches or exceeds defined limits.
- **Ensured responsive design**, making the app fully functional across desktop and mobile devices.

### E-Commerce | *Python, HTML, CSS, JavaScript, SQL*

[Link to Github](#)

[Link to Demo](#)

- Developed a full-stack E-commerce website enabling users to browse products, manage a shopping cart, and complete secure checkouts, with an admin panel for inventory and order management.
- Built a full-stack e-commerce platform with product listings, category filtering, search, and detailed product pages using [React/Next.js] on the frontend and [Node.js/Express/Django] on the backend.
- **Developed a shopping cart and wishlist system** with real-time price calculation, quantity updates, and persistent cart state across sessions.
- **Designed an admin dashboard** for managing products, inventory, orders, and users, with CRUD operations and sales analytics.
- **Ensured responsive, mobile-first design** for a seamless shopping experience across devices.

## CERTIFICATE

---

### Fullstack Web Development - Tap Academy (2026)

Mastered **Python**, **Advanced Python**, **Django**, **Flask**, **MySQL**, and Frontend Development. Gained hands-on experience in **OOP**, Collections, Multithreading, Exception Handling, and Python 8 features (**Lambda Expressions**, **Stream API**). Applied skills in multiple projects, including a capstone Online Food Delivery application, showcasing full-stack development from database integration to responsive UI design.

## EDUCATION

---

College Of Computer Science And I.T

Bachelor's Of Computer Applications

Apr 2022 – Jun 2025

CGPA - 7.9
